DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/29/2007 has been entered.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The specification should recite the terminology "substantially right angles" and point out where these angles are found in the drawings.

Claim Objections

Claims 1-7, 9-13, 16-29, 31-41 and 116-119 are objected to because of the following informalities:

In claim 1, the claim recites "said at least one posterior condylar member being disposed at substantially right angles..." It is noted that the claimed condylar portions

(plural) are disposed at angles (plural), but the recitation that the condylar member (singular) is disposed at angles (plural) as currently recited in the claims is confusing.

Claims 11-13 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The limitations of claim 11 are already found in independent claim 1.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7, 9-13, 16-29, 31-41 and 116-119 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "at least one posterior condylar member" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Claim 10 recites the limitation "at least one posterior condylar member" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Claim 11 recites the limitation "at least one posterior condylar member" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 119 recites the limitation "at least one posterior condylar member" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1-7, 9-13, 16-29, 31-41 and 116-119 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph and specification/claim objections, set forth in this Office action.

Response to Arguments

The rejections set forth in the office action mailed 10/16/2007 have been withdrawn in view of Applicant amendments filed 10/29/2007.
